Surviving and Thriving in a Deeply Weird World

In 2011, Michael Edson, a Director at the Smithsonian Institute, observed that "the future is going to get deeply weird" and "challenge us in ways we have not had to confront." We are now living in that deeply weird future. Old habits and strategies for being effective, sane, and happy serve us less well with each passing day. The good news? There are a few simple things we can do to survive and thrive in this deeply weird world.

Presenter: Peter Bromberg, Executive Director, Salt Lake City Public Library
